Question on Power Client Deployment on PB 2019 R3 Build 2703:

Is there a way to rollback the deployment from the client install Desktop ?

Explanation is as below:

Power Client Build deployment to the IIS server as follows:

	Deployment server							
Local server Server Configuration								
 ✓ Check the availability of Cloud App Launcher on the server during the deployment process Make sure the same version of Cloud App Launcher is uploaded to the deployment server. The Launcher will be downloaded to the dient for the app startup. 								
*	Deployment version:	2021.1.0.1	~	Available time (UTC):	2021-11-03 11:03:51			
*	Minimum compatible version	2021.1.0.1	¥	Expiration time (UTC):	2031-08-12 16:03:51			
	Update strategy							
	Always update (Note:	this option requires th	at the client sta	ys connected to the ser	ver)			
	O Update when connecte	ed						
	O Never update							
	Prompt to upgrade	when the application	deployment ve	rsion is invalid				
	Download options							
	O Download the app files	as necessary (except	t for the packag	es and files configured i	n the External Files tab)			
	Download all the app fi	les at ann startun	7	-				
			_/					
	App entry page settings	\rightarrow	/					
Default startup mode (using <ip address="" appname="">): Startup with background service <</ip>								
	Deploy manual.html as the entry page, for startup without background service							
	Deploy auto.html as the entry page, for startup with background service							
	 Depioy auto-muni as un 							
	Note: Make sure the correselected startup mode.	sponding Cloud App L	auncher is uplo	aded to the deployment	server for supporting the

	Note: Make sure the corre selected startup mode.	sponding Cloud App L	auncher is uplo	aded to the deployment				
	Note: Make sure the corre	2021.1.0.1	auncher is uplo	aded to the deployment Available time (UTC)				

There are 2 version of the uprototype App

- 1. Version : 2021.0.0.1
- 2. Version : 2021.1.0.1

Appeon DEV remote server is configured for the deployment as below:

The versions are published on the IIS server through the power client project.

neral	Libraries	External Files	Runtime	Signing	Deployment	Run Options

The Client desktop has the version 2021.1.0.1 Application installed on the desktop as shown below:

Question: How can we rollback the app to the earlier version of 2021.0.0.1. Please do let me know if you need more info.

Thank you for the support and help extended on this matter. If this functionality is not part of PB 2019 R3 Build:2703 please get me more details on it.

Thanks & Regards Ranjith Singh Lakshman
