## Hi Everyone

We are experiencing an issue with Buttons on a DW in PB2022 build 1900, when using the Dark Theme the picture on the DW button has a white square around the outside. The image is a PNG image 16x16 pixels with transparency (we have tried a coloured background too) see below:

	Value
Date taken Image Dimensions	
Image Dimensions	
Dimensions	
Dimensions	
	10
Width	16 pixels
Height	16 pixels
Bit depth	32
File	
Name	PHONE.png
Item type	PNG File
Folder path	C:\Workspaces\PowerBuilder\pb2022
Date created	26/05/2023 01:57
Date modified	30/05/2023 16:28
Size	536 bytes
Attributes	A
Availability	

The Image is rendering like this:

We are not seeing the same problem with the Silver Theme (different image though)

Has anyone got any suggestions on how we can resolve this problem?

Many thanks

David
